## 2<sup>nd</sup> Congress of Asia-Pacific Society of Thyroid Surgery

# APTS2017 in OKINAWA

Dates

**November 1-3, 2017**

Venue

**LOISIR HOTEL NAHA**

Congress President

**Mikio Suzuki, M.D.**

Honorary President

**Hiroya Kitano, M.D.**

Secretary General of APTS

**Kyung Tae, M.D.**

Department of Otorhinolaryngology, Head and Neck Surgery,  
University of the Ryukyus, Okinawa, Japan

Department of Otolaryngology, Head and Neck Surgery,  
Tottori University, Yonago, Japan

Department of Otolaryngology-Head and Neck Surgery,  
College of Medicine, Hanyang University, Seoul, Korea

## Welcome Message

**Mikio Suzuki, M. D.**  
Congress President  
2nd Congress of Asia-Pacific  
Society of Thyroid Surgery

### Dear Colleagues,

Following the great success of the inaugural Congress of Asia-Pacific Society of Thyroid Surgery (APTS) held last year in Seoul, Korea, it is my great pleasure to announce that APTS 2017, our second congress meeting, will be held at Loisir Hotel Naha, Okinawa, Japan from November 1 (Reception) through 3, 2017. I would like to express my deepest gratitude to all the executive members of APTS for asking me to host this prestigious meeting. Here, on behalf of the organizing committee, I would like to formally invite all of our colleagues from across the Asia-Pacific region to participate in what we believe will be a valuable and stimulating event.

The main theme of the 2nd APTS Congress will be "New Frontiers of Thyroid Surgery." Over the last two decades, a number of new technologies, procedures, and treatments have been developed and introduced in thyroid surgery. Energy devices, nerve monitoring systems, robotic and endoscopic procedures, and molecularly-targeted therapy are just some examples. The APTS2017 Congress will cover all aspects of thyroid surgery and thus provide many opportunities to learn more about the state-of-art developments in the field. Despite these advances, we still have some controversial issues in the diagnosis and management of thyroid cancer to discuss and try to resolve. So please share your experiences and latest knowledge with us by submitting papers, and join us at the meeting to help make APTS 2017 a key event in disseminating current information and updates across the Asia-Pacific regions.

We pleased to offer a unique social program and post-congress tour. Okinawa, in southernmost Japan, is a subtropical zone and has the culture different from that of Honshu, Japan's main island. The first week in November is a wonderful season for sightseeing and sports, like scuba-diving and playing golf. We hope that these leisure opportunities will add to the enjoyment of your stay in Okinawa. At the conference, there'll be plenty of chance to meet new colleagues and catch up with old ones, and we hope you'll join us to share our collective expertise and deepen our friendships.

We look forward to seeing you in Okinawa for the APTS2017 Congress.

Best regards,

June 10, 2016

### Dear Colleagues,

On behalf of the Asia-Pacific Society of Thyroid Surgery (APTS), it is my great pleasure and honor to invite you all to the 2nd Congress of the APTS in Naha, Okinawa, Japan, to be held November 1st to 3rd, 2017, at Loisir Hotel Naha. With the theme of Multidisciplinary Progress in Thyroid Cancer Management for Contemporary Thyroid Practitioners, this congress was formed to establish scientific links across scholars in the Asia-Pacific region. High-profile faculty members from abroad will be invited and stimulating keynote lectures, symposia, and panel discussions in a variety of topics will be held, offering an opportunity to share the most to-date, cutting-edge perspectives and technologies related to thyroid cancer.

You are sure to have a wonderful time in Okinawa, Japan's southernmost prefecture. Located in the subtropics, Okinawa's islands are considered among the world's most beautiful, with crystal blue seas, white sand beaches, coral reefs, and beautiful flowers in any season.

We must work together to face the various issues and wide range of problems presented by thyroid cancer, and discuss solutions from medical, surgical, and many other points of view. We sincerely hope that this congress will play a central role in spreading current and updated information from Asia-Pacific to the whole world.

We are looking forward to your participation in this Congress, and we greatly appreciate your contribution to our Society. We look forward to meeting you in Okinawa.

Best regards,

## IMPORTANT DATES

Abstract Submission begins **April 1, 2017**

Deadline for Abstract Submission **June 22, 2017** (At Noon, Japan time)

Notification of Abstract Acceptance **August 15, 2017**

Registration Deadline for Paper Publication & Pre-Registration **September 30, 2017**

## CALL FOR PAPERS

### Submissions of Abstracts

The Scientific Committee invites all interested participants to submit abstracts for the oral or poster presentations. Please note if an overwhelming number of Oral presentations submissions are received, the Review Committee reserves the right to accept abstracts on alternate presentation types to what has been submitted. Authors must register and attend the meeting – A presenting author's registration must be done before the deadline for pre-registration. After the date, the committee will reject the papers of those who have not registered. If you want to make onsite registration, inform the secretariat in case your research will not be included in the book and program.

The abstracts must be 300 words. All abstracts should be submitted via the On-line (Web) Submission form available at the APTS 2017 website by June 22, 2017 (At Noon, Japan Time).

### Notification of Abstract Acceptance

All submitted abstracts will be reviewed by the Scientific Committee.

The acceptance or rejection of the proposed paper will be notified to the corresponding author by August 15, 2017.

### Registration Deadline for Paper Publication

Authors are asked to make pre-registration for the secretariat to arrange presentation schedule accurately. In case of intending to make on-site registration, informing by email in advance is required. Not registered author's paper will be withdrawn by the committee after the registration deadline.

## Organization

### Advisory Board Member

Phil-Sang Chung (Professor, Dankook University Hospital, South Korea) (Director, Beckman Laser Institute Korea; Director, Laser Translational Clinical Research Center)  
K. Ito (Ito Hospital)

M. Kapre (Director, Neeti clinics, Nagpur, President Indian Society of Thyroid Surgeons Chair)

Kang-Dae Lee (Professor, Kosin University College of Medicine, South Korea) (President, Korean Society of Thyroid-Head and Neck Surgery; President, 1st Congress of Asia Pacific Society of Thyroid Surgery)

A. Miyauchi (Kuma Hospital)

K. Nagahara (Kyoto Renaiss Hospital)

Gregory W. Randolph (Claire and John Bertucci Endowed Chair in Thyroid Surgical Oncology, Harvard Medical School; Director General and Thyroid/Parathyroid Endocrine Surgical Divisions, Massachusetts Eye and Ear Infirmary Boston, Ma)

H. Takami (Teikyo University Professor emeritus) (Ito Hospital)

### Scientific Program Committee

S. Moritani (Kusatsu General Hospital)  
T. Asakage (Tokyo Medical and Dental University)  
T. Fukuhara (Faculty of Medicine Tottori University)  
S. Hirano (Kyoto Prefectural University of Medicine)

H. Inohara (Osaka University Graduate School of Medicine)  
Y. Ito (Kuma Hospital)  
M. Kitamura (Kyoto University)  
M. Masuda (National Hospital Organization Kyushu Cancer Center)

K. Shiga (Iwate Medical University, School of Medicine)  
Y. Shimode (Kanazawa Medical University)

### Local Organizing Committee

T. Asakage (Tokyo Medical and Dental University)  
K. Chikamatsu (Gunma University)  
K. Doi (Kindai University Faculty of Medicine)  
S. Fujieda (University of Fukui)  
Y. Fujiimoto (Nagoya University)  
S. Fukuda (Hokkaido University)  
M. Furukawa (Kanagawa Cancer Center)  
A. Hara (University of Tsukuba)  
Y. Harabuchi (Asahikawa Medical University)  
T. Harada (Kawasaki medical school)  
Y. Hasegawa (Aichi Cancer Center Hospital)  
N. Hato (Ehime University)  
R. Hayashi (National Cancer Center Hospital East)  
T. Himi (Sapporo Medical University)  
H. Hirabayashi (Dokkyo Medical University)  
K. Hirakawa (Hiroshima University Graduate School)  
K. Hirano (Kyorin University)  
S. Hirano (Kyoto Prefectural University of Medicine)  
A. Horii (Niigata University)  
H. Hoshikawa (Kagawa University)  
H. Iguchi (Osaka City University)  
K. Ikeda (Juntendo University)  
T. Imai (National Hospital Organization Higashinagoya National Hospital)  
H. Inohara (Osaka University)

Y. Ito (Kuma Hospital)  
H. Iwai (Kansai Medical University)  
Y. Katori (Tohoku University)  
R. Kawata (Osaka Medical College)  
H. Kawachi (Shimane University)  
T. Kitahara (Nara Medical University)  
N. Kono (Kosei Hospital)  
Y. Kuratomi (Saga University)  
Y. Kurono (Kagoshima University)  
M. Masuda (National Hospital Organization Kyushu Cancer Center)  
K. Matsuura (Miyagi Cancer Center)  
R. Minoda (Kumamoto University)  
A. Miya (Kuma Hospital)  
S. Murakami (Nagoya City University Graduate School of Medical Sciences)  
S. Murono (Fukushima Medical University)  
T. Nakagawa (Kyushu University)  
K. Nibu (Kobe University)  
H. Nishino (Jichi Medical University Hospital)  
K. Nishizaki (Okayama University)  
K. Ogawa (Keio University)  
T. Ogawa (Aichi Medical University)  
K. Okami (Tokai University)  
Y. Okamoto (Chiba University)  
K. Okubo (Nippon Medical School Hospital)

K. Omori (Kyoto University)  
N. Oridate (Yokohama City University)  
T. Oshima (Nihon University)  
T. Sakata (Fukuoka University)  
K. Sakurai (Fujita Health University)  
K. Shiga (Iwate Medical University)  
T. Shimizu (Shiga University of Medical Science)  
A. Shiotani (National Defense Medical College)  
H. Shojaku (University of Toyama Graduate School)  
H. Suzuki (University of Occupational and Environmental Health)  
S. Suzuki (Fukushima Medical University)  
N. Takeda (Tokushima University)  
H. Takeuchi (Tottori University)  
K. Takeuchi (Mie University)  
T. Tono (University of Miyazaki)  
H. Umeno (Kurume University)  
H. Yamashita (Yamaguchi University)  
H. Yamashita (Yamashita Clinic)  
T. Yamashita (Kitasato University)  
T. Yamasoba (The University of Tokyo)  
T. Yoshihara (Tohto Bunkyo Hospital)  
T. Yoshizaki (Kanazawa University)
